SUMMARY

Skilled Frontend Developer specializing in Vue.js with expertise in HTML/CSS, JavaScript, and responsive design. Proficient in using frameworks like Vue.js and Nuxt.js, and experienced with API integration and version control (Git). Adept at optimizing web performance and implementing UI/UX principles. Strong problem-solving abilities and excellent communication skills, committed to continuous learning and collaboration.

EXPERIENCE

Frontend Software Engineer

09/2024 - Present

OverPowered Agency ↗

- Built and maintained a modular ERP system for managing purchase orders, advances, cheques, inventory, suppliers, and invoices.
- Developed UI components using Vue 3, TypeScript, Pinia, and TailwindCSS, improving development speed by 30%.
- Integrated dynamic forms, tables, and real-time data views, reducing user processing time by 25%.
- Collaborated with backend team to consume REST APIs and ensure seamless data flow.
- Followed best practices in Git, code reviews, and Agile workflows.

Part-Time Frontend Team Lead

08/2024 - Present

Code7x ↗

- Leading frontend efforts across multiple software house projects, including e-commerce platforms, educational websites, and custom business solutions.
- Mentored and supported a team of junior and mid-level developers, helping them level up their skills and adopt best practices—resulting in a 50% improvement in code quality and delivery speed.
- Spearheaded the adoption of modern frontend technologies such as Vue 3, Nuxt 3, TypeScript, TailwindCSS, and Pinia to ensure scalability, performance, and maintainability.
- Collaborated with cross-functional teams to define project architecture, development workflows, and deployment pipelines.

Frontend Developer

08/2023 - 09/2023

CodeBase ↗

- Led the frontend development of a SaaS platform for construction and engineering services, enabling streamlined project tracking, client management, and service workflows.
- Developed and deployed responsive user interfaces for high-traffic websites using Vue.js 3 & Nuxt.js 3, enhancing user engagement by 35% through improved UI/UX design and interactivity.
- Orchestrated collaboration among cross-functional teams to implement innovative marketing strategies, resulting in a 40% increase in customer retention and a 25% boost in customer lifetime value.

VueJs Developer

05/2021 - 08/2023

AAit ↗

- Developed and deployed dynamic, single-page applications using Vue.js, Vuex, and Vue Router, enhancing user experiences and boosting site engagement by 35%.
- Pioneered innovative UI designs, resulting in 30% increase in user interaction and 25% growth in user engagement.

EDUCATION

Computer Science08/2018 - 08/2022

Mansoura University , FCIS - Bachelor of computer science

- Specialized in Computer Science, with strong foundations in algorithms, data structures, software engineering, and web development.
- Graduation Project: Developed a legal tech platform to connect lawyers with individuals, enabling users to search for legal professionals, book consultations, and manage case-related documents online. The system aimed to bridge the gap between legal services and the public through a user-friendly and secure interface.
